

PODMX KNEE BRACE

THE NEXT LEVEL IN KNEE BRACE PERFORMANCE

SELF TRACKING PATELLA GUARD

EXTRA PROTECTION

The patella guard is connected to the hinge assembly and transfers impacts away from the knee cap and into the brace. (Patents pending)

THERMO PLASTIC URETHANE HINGE

MAXIMUM PROTECTION, SMOOTH AND SECURE

Inspired by the human body, the ground breaking TPU hinge assembly supports the natural range of motion of the knee. The hinge stop housing provides secure extension locking and maximum medial and lateral protection. (Patents pending)

CUSTOMIZE THE FIT

GET PERSONAL

Adjustable strap lengths, strap padding and hinge padding. Optional brace locking angles (12.5°, 15.0°, 17.5° & 20.0°).

PODMX.COM

TECHNOLOGY & KNOWLEDGE

This innovative product introduces new technologies to knee bracing. Take advantage of our knowledge and resources to assist you in getting the most out of your knee brace.

OFF THE SHELF

SIZE & SUPPLY

Braces are available in small, medium, large and extra large sizes. Contact your local retailer to view our products.

IMPROVED COMFORT + AIR FLOW

BE COOL & COMFORTABLE

The vented foam removable liner keeps you cool, while thermo-formed pressure-point padding keeps you comfortable.

CARBON FIBER COMPOSITE

LIGHT WEIGHT, AND STRONG ERGONOMIC

The low-profile frame conforms to you, your riding gear and your bike. Two full layers of carbon fiber enhance structural integrity and keep the total weight to only 660gms (medium size).
